Catalogue

OF PLANTS and SEEDS.

1876.

TO OUR CUSTOMERS.

IN this, the Centennial year of our country, we call the attention of our many customers and friends to our very fine stock of Seeds and Plants, embracing everything worthy of a place in the Garden, Conservatory or Pleasure Ground.

Our long experience enables us to offer Seeds and Plants of the finest quality; but the best seeds sometimes fail to germinate through many causes; one of the most common is heavy rains after sowing, and the consequent baking of the ground afterwards. Then, again, an untimely frost, or a very cold current of air passing over the shoots immediately on their appearance above ground, may destroy the whole process of vegetation. Then, again, vermin, cut-worms, and other insects scarcely visible, may destroy a crop unknown to the planter. And finally, there are sometimes causes at work which escape the closest observation, owing to conditions of temperature, but little understood. For the above reasons, we wish to state in this explicit form, *that whilst we exercise the greatest care to have all seeds pure and reliable, it is hereby mutually agreed between ourselves and the purchaser of our seeds, that we do not warrant the same, and are not in any respect liable or responsible for seeds sold by us, or for any loss or damage arising from any failure thereof in any respect.*

We invite all, when practicable, to visit our greenhouses and select their seeds or plants personally.

The sending of plants last year by mail gave such universal satisfaction that we continue to send as heretofore, but with increased safety, by using light wooden boxes when it requires more than three or four days in transit, by which means they carry as safely as by express, but of course the plants will be smaller.

We, however, continue to advise our customers to have their Plants sent by Express when practicable, as larger and finer plants, and more of them for the same amount of money, can be sent by Express than by Mail; for in all orders sent by express, extra plants are always added, that are of more value than the cost of expressage.

All orders for SEEDS or PLANTS to go by MAIL should be directed, as heretofore, to Brentwood, N. H.; if for PLANTS to go by EXPRESS, they can be ordered either from Brentwood or Manchester.

Orders from unknown correspondents, unless accompanied by a remittance or satisfactory reference, will be sent by express, C. O. D.

No charges for boxes, baskets, or packing, and all packages delivered at Railroad Stations or Express Offices free of charge.

NEW & RARE PLANTS

FOR 1876.

Geranium.—*Happy Thought*.

Entirely new style of leaf marking, differing from the ordinary form in having a large yellow center in the leaf, with an outer band of green at the margin. Flowers magenta rose. A most novel and interesting variety.

Price, 75 cents each.

Geranium.—*Mrs. Taylor*.

A distinct variety of the scented geranium, with strong rose fragrance and large scarlet flowers; very useful for summer cut flowers, or as a pot plant for winter.

Price, \$1.00 each.

Geraniums.—*Tricolor*.

Princess Beatrice, quite distinct; it has a fine, large, flat leaf, with a scarlet zone, brightly streaked and neatly edged with white; a robust grower. 50 cents each.

Sophia Cusack, very beautiful, with deep-yellow margin, and brilliant-flamed scarlet zone, upon a broken bronze border. 50 cents each.

Mable Morris. This is a variety with pretty variegated foliage, close, compact habit; the leaves are bright green, margined with pure white, and slightly zoned with pink, flowers lilac rose. 50 cents each.

Plutarch. Leaves large, green center, with broad black zone, bordered with scarlet crimson, and margin of bright yellow; one of the best. \$1.00 each.

Miss Farren. Leaves bright green, black zone, cream-colored margin; fine habit and free grower. \$1.50 each.

Prince Silverwings. This is a very distinct and beautiful kind; it is evidently a cross with **Stella**, with a silver and gold tri-color leaf, and is the first tri-color with a true **Stella Nosegay** habit; a very desirable variety. 75 cents each.

Cuphea.—*Hyssopefolia*.

A neat little flowering plant, always in flower like all others of this family, growing only twelve inches high. Flowers small, of a purplish lilac color. 25 cents each.

Carnation. *Mrs. McKenzie*.

Color light rose, perfect form, flowering finely during winter, fine clove fragrance.

Price, 50 cents each.

Carnation. *Gauntlet*.

A beautiful winter flowering variety, color light carmine, strong grower and profuse bloomer. 50 cents each.

Double Geranium. *Jewell*.

A very dwarf variety, a free bloomer, with trusses of good size, deep scarlet in color; each separate flower is regularly formed, resembling a miniature rose. The foliage is slightly zoned, and is not as coarse as double geraniums usually are. 75 cents each.

Double Geranium. *Asa Gray*.

Quite a new color in double geraniums—a distinct shade of salmon pink; it also, like the preceding, blooms as profusely as the single sorts.

Price, 50 cents each; \$4.50 per dozen.

Double Geranium. *Admiration*.

This is, without doubt, the best pink double geranium yet introduced. In color it is much darker than "Madame Lemoine," more dwarf, with trusses larger, and blooming as freely as any of the single sorts. 50 cents each.

Silver-Leaved Geranium. *Avalanche.*

One of the whitest leaved sorts, of vigorous growth, with pure white flowers, making it valuable for massing where a white group or line is required. 75 cents each.

Zonal Geraniums.

Amaranth. Flowers beautiful amaranth red, large truss, very fine.

Orb of Day. The finest of all the scarlet geraniums, habit dwarf and compact, foliage glossy green, trusses of flowers very large, forming a perfect circle and of the brightest scarlet.

Harry King. Vivid dark scarlet.

H. H. Hunnewell. Monstrous sized flowers, color orange scarlet.

Mad Gean Sisley. Flowers white, scarlet center, fine.

Remus. Flowers white, with beautiful lake eye, large truss, splendid.

Price, 50 cents each; the six varieties, \$2.50

Pelargoniums. *New, Fancy and Spotted.*

The following are some of the finest, new, continental, spotted varieties:

Admiration.

Arthur d' Smet.

Comp d' Flanders.

Gloire d' Petite.

Mad Warlet.

Prince Noir.

Vicomtesse de la Bertha.

Charles Binder.

Price, 50 cents each; the eight varieties, \$3.00.

Old White Garden Rose

We have succeeded in growing a very fine stock of this, the finest hardy white rose ever grown. It is too well known to need a description. It has heretofore been considered difficult of propagation, and therefore not offered for sale.

Price, in 6 inch pot, \$1.00 each; in 3 inch pot, 50 cents each.

New Pelargoniums.—Of 1874.

Amazon, orange crimson, large, black maroon blotch on top petals, light center, fine large flower.

Mont Blanc, large, pure white, maroon spot on lower petals, large maroon blotch on top petals.

La Phare, flower purplish crimson, black spot on top petals, white throat, shaded with carmine.

Seraph, violet purple, maroon blotch on top petals, clear white throat.

Vesuvius, orange scarlet, very dark top petals, dark chestnut spot on lower petals, white throat shaded with violet crimson, free bloomer.

Novelty, white, shaded with rosy crimson, maroon blotch on top petals, shaded to the edge with rosy crimson, rose crimson spot on lower petals.

Unique, violet rose, maroon blotch on top petals, lower and top petals veined with crimson, very large pure white throat.

May Day, light blush, black blotch on top petals.

La Belle, lower petals deep blush, shaded violet rose, top petals maroon, large, fine flower.

Price, 50 cents each; the set of nine varieties, \$4.00.

Peristrophe Angustifolia Variegata.

A very beautiful variegated plant, with narrow foliage, conspicuously blotched with orange-yellow in the center. It makes a compact growth, six inches high; and for edging to beds or ribbon-lines, it is one of the most effective plants; also fine for baskets.

Price, 30 cents each; \$3.00 per dozen.

New Daisy.—Queen Victoria.

One of the finest daisies we have ever seen. It is a strong growing plant, and a most abundant bloomer, producing flower heads an inch and a half across. The florits are of a bright carmine on the outside and white within; a part are completely quilled or tubular, and others are flat, and the contrast between the two surfaces produces a pleasing variegation. 25 cents each.

New Double Tuberosc.—Pearl.

Its value over the common variety consists in its flowers being of double the size, imbricated like a rose, and its dwarf habit, growing only from 18 inches to 2 feet in height; in other respects it is the same as the common sort. 25 cents each; \$2.50 per dozen.

Feverfew.—Dwarf.

Quite an improvement on the old double white variety, the flowers are larger and the plant of dwarfer habit. 30 cents each; \$3.00 per dozen.

New Tricolor-Leaved Fuchsia.—Sunray.

One of the most beautiful plants ever offered; colors as rich and clear as in any Tricolor Pelargonium; the leaves, which are very large, are of a rich, bright crimson, white, and bronzy green, in about equal parts. The habit and growth is all that can be desired, each plant forming a beautiful pyramid. It will make a magnificent exhibition plant, and invaluable as a decorative or market plant. Flowers of fine form, scarlet tube and sepals, with light purple corolla. 50 cents each.

Lysimachia Numullaria.—Aurea.

New Golden-leaf Moneywort.

A variety of this well-known plant, with bright yellow foliage, which will prove, from its drooping habit, to be very valuable for our basket plants. 20 cents each.

Lygonium Scandam. Japanese Climbing Fern.

A climbing fern from the East Indies; a most graceful plant, growing from one to fifty feet, as desired. Of as easy culture as the Smilax, used the same in decorating, for which purpose it is equal, if not superior, to that plant. 50 cents each.

Abutilon Pattersoni.

A dwarf-growing, free-flowering, and handsome variety, forming a compact, bushy specimen, with very large, dark, chocolate-crimson flowers on very long, pendant stems.

Price, 50 cents each.

Begonia Weltoniensis.

A fine summer, autumn, and winter blooming variety, of a dwarf habit, with crimson stems, bright-green leaves, and waxy pink flowers. 30 cents each; \$3.00 per dozen.

Canna Nigricans.

A distinct and very beautiful variety, of stately growth, with broad foliage of a rich, bronzy-metallic luster, rivalling the tropical-leaved plants. It attains the height of eight feet, and its tall stems are terminated with long spikes of scarlet flowers.

Plants, 50 cents each; \$4.00 per dozen.

Three-Colored Leaved Canna.

Canna Tricolor.

Though not entirely new, this is a rare and most picturesque variety, of dwarf habit, growing only two feet high, with green leaves, distinctly striped with yellow and pink. As an edging to beds of the tall-growing and dark or common kinds, it is an invaluable acquisition. 50 cents each.

Double Blue Lobelia.

One of the novelties of last season, and a most valuable one; in habit it is similar to the compact growing single varieties, but having double flowers, somewhat resembling the double Violet. Like all plants having double flowers, its duration of blooming is much longer. It forms a tuft, about four inches high, and nine inches in diameter, and is completely covered with flowers, forming a mass of rich dark blue. Valuable for baskets, or for bedding in the open ground, especially for the front line in ribbon borders.

Price, 30 cents each; \$3.00 per dozen.

Lychnis Haageana. New Dwarf.

A novelty of the first rank. Flowers of the same size and bailliancy of colors as the old Lychnis Haageana, but much improved, being only eight inches high, it will be very useful for borders and dwarf beds. 50 cents each.

GENERAL LIST.

Alternatheras.

Dwarf, bushy plants, with brilliantly colored leaves; excellent for vases or hanging baskets. Planted in light soil in the flower garden, they succeed to perfection, the great heat of the summer bringing out the full beauty of the foliage.

Magnifica, variously colored with gold, crimson, orange and bronze.

Amabilis, rich tints of orange, rose and green.

Paronychoides, bronze brown, tipped with bright red.

Amœna, magenta colored; very dwarf plant.

Spatulata, leaves tinted carmine and green.

Telianthera Versicolor, brown and green, tipped with magenta.

Price, 20 cents each; \$2.00 per dozen.

Abutilon Thomsonii.

A plant of an erect, graceful habit, the leaves are mottled or marked with bright golden yellow, which retain their variegation during the hot weather; flowers orange, veined with crimson. 30 cents each.

Abutilon Striatum.

A vigorous growing plant, blooming freely from July to March, very useful for bouquets. 30 cents each.

Abutilon Boule de Neige.

This remarkable novelty has been introduced the past season; its habit of growth is compact and branching, with the usual maple-like foliage. But its large, pendulous flowers are pure white, thus adding a new and desirable feature to this valuable class of plants. 50 cents each.

Agave Americana.

The well-known Century Plant; a magnificent ornament for the garden, the lawn, the conservatory or parlor; can be easily kept in the cellar during winter.

Price, 50 cents each.

Carnation.—*La Belle*.

This fine variety still maintains its popularity as a winter flowering carnation, pure white and very fragrant. 40 cents each.

Clerodendron Balfourii.

A stove climber of great beauty. The flowers are of a bright scarlet; the trusses or panicles of flowers are upwards of six inches in width, and when trained upon trellises, and hanging down, have a rich and elegant appearance. It is continually in bloom, although more profusely during the winter months. 50 cts. each.

Pink, Alba Fimbriata.

A double white variety, of good form and substance, and very fragrant. It is very useful for cutting for bouquets in summer, or the forcing for the same purpose in winter. 25 cents each; \$2.50 per dozen.

Achyranthus.

Fine plants either for the decoration of the flower garden in summer or conservatory in winter, retaining their color well through the summer, growing freely in almost any soil or situation; the following are the most desirable:

Aurea Reticulata, leaves light green, netted with golden yellow.

Gilsoni, leaves and stems bright crimson, compact growing, excellent for bedding out with light foliage plants.

Verschaffeltii, the leaves and stems are of violet, shaded with crimson, compact growing.

Price, 20 cents each; \$2 per dozen.

Antirrhinum.—*Snapdragon*.

An indispensable tribe of plants for bedding out, worthy of a place in every garden, blooming without intermission from May until frost; in various colors from pure white to deep crimson, including many fine blotched and striped varieties.

Price, 20 cents each; \$2 per dozen.

Azalea Indica.

A very beautiful kind of plants, for winter or spring blooming; of nearly every shade of color, blooming freely from January to June; they require an abundance of water when in bloom and in a growing state.

Adolphe de Nassau, large rose.

Brilliant, scarlet.

Burlingtonia, rosy purple.

Compt de Hainault, double rose, spotted.

Coronata, brilliant, deep, rosy crimson.

Decora, rich violet rose, great bloomer.

Eulalie Van Geert, large carmine, variegated.

Fielder's White, very fine white.

Minerva, scarlet.

Imbricata Alba, white.

Napoleon III., scarlet.

Narcissiflora, double white, very early.

Sophie de Schondrun, scarlet.

Suzette, clear, silvery lilac, densely spotted.

Sir Charles Napier, salmon rose.

Standard of Perfection, rose.

Symmetry, rosy salmon.

Watsonii, dark rose.

Price, 50 cents each; \$4 per dozen.

Alyssum Variegata.

This is one of our most useful variegated plants, the white of the foliage predominating over the green; it is excellent for baskets, or for massing, and as it blooms freely in winter its sweet-scented flowers are much used for bouquets.

Price, 15 cents each; \$1.50 per dozen.

Aloysia Citriodora.—*Lemon Verbena*.

A plant very much esteemed for its delightful fragrance, making quite an acquisition for bouquets. A fine bedding plant, will grow in any common garden soil.

Price, 30 cents each; \$2.50 per dozen.

Begonias.—*Rex Varieties*.

Of these beautiful ornamental leaved plants, we have a very fine stock of six or eight of the finest varieties, suitable for baskets, &c. 35 cents each.

Begonias.—*Flowering Varieties*.

The Begonias are now considered indispensable as winter flowering plants, blooming profusely as they do from November to March; flowers vary from light pink to dark scarlet.

Hybrida Multiflora, of neat, compact habit, with small, ovate, glossy leaves and a profusion of gracefully drooping racemes of rosy pink flowers.

Incarnata, bearing clusters of pink flowers through the winter.

Saundersonii, scarlet crimson.

Foliosa, an elegant dwarf, drooping species, adapted for growing in hanging baskets, with light pink flowers, produced in great abundance. 50 cents.

Sedeni, the flowers are of the richest Magenta color, and of large size; continues a long time in bloom. 50 cents.

25 cents each; \$2.00 per dozen, except where noted.

Begonia Veitchii Argentea.

This beautiful plant proves to be a decided acquisition to our ornamental foliage plants; leaves distinctly spotted white on the upper surface, reddish brown underneath; very large blossoms of a rich orange scarlet.

Price, 25 cents each; \$2 per dozen.

Bouvardies.

For autumn and winter flowering plants the Bouvardies are well known to every florist; they are of the easiest culture, giving their rich colored flowers in great profusion.

Davidsonii, a white winter blooming variety, bearing clusters of white flowers in great profusion through the winter months, when they are so much prized. 50 cents each.

Elegans, color a scarlet carmine, flowers and truss of immense size, larger than any other variety. 50 cents each.

Grandiflora, flowers pure white, wax-like; very sweet; a distinct and very beautiful variety. 50 cents each.

Leiantha, splendid racemes of rich scarlet; vigorous grower, fine habit, free bloomer. 30 cents each.

Jasminoides, bearing in great profusion wax-like flowers, which resemble the Jasmine, both in appearance and fragrance. 30 cents.

Vrelandii, free grower and profuse bloomer, bearing large trusses of pure white flowers. 50 cents each.

Camellias.

These are the most important of all flowers used in the construction of bouquets. They are grown to an extent truly surprising for that purpose in all our large cities and villages. Our collection contains all the finest varieties in cultivation.

Price, \$1 to \$3 each.

Carnations, Monthly or Tree.

A very valuable plant for either summer decoration of the flower garden, or for winter flowering in the parlor or greenhouse; flowers of nearly every shade of markings, most of them are delightfully fragrant, and are valuable for winter bouquets.

Astoria, yellow ground, edged with scarlet, white and crimson.

Boule de Neige, pink.

Canary, yellow ground, tinged rose.

Donadis Pride, bright scarlet.

De Fontana, yellow ground, tinted with purple.

Mamie, this is no doubt the best white, winter flowering carnation grown.

Edwardsii, pure white, large and perfect flower.

Henrietta, rose, striped with purple.

La Purite, carmine, dwarf, profuse bloomer.

Miniature, pink and white.

Mrs. Zeller, pure white.

Marginata, white, shaded with rosy lilac

Mrs. Wilson, large, bright scarlet.

President Degraw, pure white, occasionally shaded blush.

Souvenir de un Ami, rosy white, flaked with purple.

Variegated La Purite, carmine, striped.

Price, 30 cents each; \$3 per dozen.

Calla Lilies.

These well known and beautiful plants, with large, white, trumpet shaped flowers, will bloom freely all the summer, and may be easily wintered in a light cellar. During their growing season they require an abundance of water.

Price, 35 to 50 cents each.

CANNA.

Cannas.

A genus of tropical plants, making fine ornamental bedding groups of easy culture; will grow in any garden soil, blooming the entire summer; their chief merit is their large, showy, tropical foliage; are useful grown as a single specimen, or for grouping with other foliage plants; may be dug and kept in a dry, warm place, same as Dahlias, during the winter. 30 cents each.

Caladium Esculentum.

This is one of the most beautiful and striking of the ornamental foliage plants in cultivation, either for culture in large pots or for planting out upon the lawn, as a single specimen, or for grouping with other ornamental foliage plants, growing easily in any good garden soil, and is of the easiest culture. When of full size it stands about five feet high, with immense leaves of shield-shaped outline, measuring four feet in length by two to three in breadth, very smooth and of a light green color, beautifully veined and variegated with dark green. 50 cents each.

Caladiums.—*In Variety.*

Of this superb class of ornamental leaf plants, we offer a fine collection, all of which have beautiful leaf markings, of almost every imaginable color, spotted, blotched, speckled or flecked with white, or crimson, on a green ground.

Price, 50 cents to \$1 each.

Campanula, Medium Calycanthema.

Perennial; a variety of Canterbury Bell. The flower cup is about the same as the old Canterbury bell; the flower sets into a colored calyx, the calyx having the appearance of a portion of the flower. In this variety the calyx spreads out, while in the old variety the calyx is green and stands closely up against the flower. 35 cents each.

Calceolarias, Shrubby.

These are beautiful and singular bedding plants, their novel shades of color give interesting variety to the flower garden during the summer months.

Price, 20 cents each; \$2 per dozen.

Seedlings from finest strain of herbaceous sorts, beautifully marked and spotted. 30 cents each.

Centaurea Candida.

A neat, compact growing plant, with downy white leaves. Massed with the Coleus, it forms a striking contrast. 40 cents each.

Centaurea Gymnocarpa.

This handsome plant attains a diameter of two feet, forming a graceful, rounded bush of silvery grey, for which nothing is so well fitted to contrast with dark foliage plants. As a plant for hanging baskets it is also unsurpassed, its drooping, fern-like leaves being very effective.

Price, 30 cents each; \$3 per dozen.

Centaurea Clementina.

A robust and free-growing variety, producing crowns of leaves deeply cut in lobes, the leaves in their earliest stage being so densely covered with down as to be perfectly white. 50 cents each.

Coliseum Ivy.—*Linaria*.

A very interesting and compact growing plant, never exceeding four inches in height, and of a beautiful trailing habit. 15 cents each.

Coleus.

Perhaps no plant of late introduction has created such a sensation as the Coleus; they surpass all other plants in the diversity of their character and appearance, as well as in the brightness of their coloring; in grouping, their rich and varied hues form a striking and agreeable contrast.

Aurea Marginata, a very beautiful variety with light crimson scarlet leaves, and bright golden margin.

Beauty of Widmore, light green; chocolate center, with pink zone.

Glow-worm, claret crimson, clearly defined green edge.

Golden Gem, leaves crimson, bronze, bright yellow margin.

Her Majesty, bronzy red center, with narrow yellow edge.

Hero, chocolate maroon.

Lady Edith, leaf deeply serrated of the richest olive, broadly margined with light yellow.

Laciniata, leaves bright green, with chocolate colored spots.

Marshallii, rich chocolate purple, with narrow green edge.

Princess Royal, center of the leaves are a rich bronzy crimson, with a narrow, bright yellow margin.

Prince of Wales, leaves of a deep purplish red, marked with deeper colored blotches, and slight golden margin.

Verschaffeltii, rich velvety crimson, the finest bedding sort.

Veitchii, leaves light green, with dark chocolate spots.

Van Houtii, rich deep green, speckled and splashed with crimson.

Victor, bronzy red, broad golden margin.

Setting Sun, rich bronze, crimson center, yellow edge.

Chameleon, this is a distinct variety of great beauty, ground color of the leaf is a carmine pink, splashed with dark maroon, the edge of the leaf fringed with yellow; it is well named chameleon, for there is seldom two leaves on the plant to be found alike; this variety must be grown in a high temperature to bring it to perfection.

Price, 25 cents each; \$2.50 per dozen.

CYCLAMEN PERSICUM.

Cyclamen Persicum.

As an ornamental plant this is excelled by few. Its varied and marbled foliage contrasting finely with its beautiful and fragrant flowers, it is considered one of the best flowering plants for parlor or conservatory decorations from December to May. It is especially adapted for a window plant, standing the variations of temperature and dry atmosphere well. 30 cents to \$1 each, according to size.

Cissus Discolor.

A well-known Stove Climber with leaves beautifully shaded with dark green, purple and white; the upper surface of the leaf having a rich, velvet-like appearance. The plant requires the highest temperature in winter to develop the beautiful coloring of the leaves; with proper treatment it may be trained to almost any extent. 50 cents each.

Coprosma Baueriana Variegata.

An exceedingly beautiful plant, suitable either for greenhouse decoration or for beautifying the flower garden during the summer months. The habit is bushy and compact, leaves obovate, stout, bright glossy green in the center, broadly margined with creamy yellow, which changes with age to pure white. 50 cts. each.

Cuphea Platycentra.

Always in bloom; grows freely in the flower border in summer, and is covered with a profusion of bright scarlet tubes, tipped with black and white.

Price, 10 cents each; \$1 per dozen.

Dahlias.

Our varieties of this most beautiful and showy flower have been selected with special reference to constancy and continuance of bloom; they are all first class sorts, and with proper attention will make a gorgeous display during the fall months.

Ferns.

These beautiful plants are now coming into very general cultivation; their great diversity and gracefulness of foliage, make them much valued as plants for baskets, vases, or rock-work, or as specimen plants for parlor or conservatory. Our stock this season will be very large and varied.

Price, 30 cents each.

Fernerfolia Odorata.—*Geranium*.

This was raised from the old *Denticulata*, but is much more finely cut in the leaf, and is a very strong grower. It never changes its beautiful, fern-like appearance, and is one of the easiest geraniums to grow at all seasons of the year. The fragrance is pleasing, and it is an exceedingly beautiful plant. 50 cents each.

Fittonia Argyroneura.

A trailing plant with light green leaves, which are beautifully veined and laced with silver. 30 cents each.

Gardenas.

An esteemed genus of plants, having an evergreen shining foliage; the flowers are of a beautiful waxy white, and highly odoriferous. 50 cents each.

Lady Edith.—*Ivy-Leaf Geranium*.

This beautiful novelty is the result of a cross between a Zonale and Ivy-Leaf Pelargonium. Flowers crimson, tinged with purple, profuse bloomer, leaves and habit of plant very lovely, quite new and distinct in character. 35 cents each.

Mrs. J. C. Mapping.—*White Edged Geranium*.

(*White Flowers*.)

Here we have a variety with not only the beautiful variegated leaves, but having at the same time pure white flowers. The habit of the plant appears good and vigorous, and we have no doubt it will fully sustain the high character we receive with it. 50 cents each.

***Geranium Quercifolium Nigricans*.**

A beautiful oak leaf variety, of good habit, producing a dense mass of green leaves, beautifully veined with black. 25 cents each.

***Geranium*, Ivy-leaved, Remarkable.**

A large-flowered variety, after the style of the Ivy-leaved section, rose and white, with an upright habit. A beautiful and interesting plant, entirely distinct in character. 30 cents each.

***Geranium*, Scented.—*Little Pet*.**

A dwarf, cut-leaved variety, delightfully fragrant, having the valuable quality of blooming as profusely as the scarlets; flowers bright carmine with black spot.

Price, 25 cents each.

Gold and Silver Variegated Geraniums.

We know of no plants that better repay good cultivation than the variegated Geraniums. When well grown, whether in bloom or not, they are a bouquet of themselves; there are no plants that are more easily managed, more beautiful or more worthy of cultivation.

Arthur H. Wills, zone very dark chestnut brown, surrounded by a bright yellow margin, habit compact and free.

Battersea Park Gem, light yellow leaves, with a deep green center; fine.

French Hibrid Gladiolus.

All the varieties of Gladiolus are well worth growing; most of them producing the most gorgeous display imaginable, and so various are the colors, that in all our large collection scarcely two resemble each other.

By planting from the middle of April until the middle of June, a constant succession of flowers may be had from early in summer until frost. The bulbs should be planted two or three inches under ground, according to size, and a small stake, two or three feet long, should be placed by each bulb to support the flower stalk as it advances in growth.

At the end of the season, about November 1st, or a little later, the bulbs should be dug up and dried in an airy place, well protected from frost.

SEED DEPARTMENT.

TO OUR CUSTOMERS.

Again we have the pleasure of presenting our Annual List of Seeds; and we desire to express our thanks to all who have favored us with their orders during the past year, and, trusting our endeavors to meet the demands of our friends have been appreciated, we invite special attention to the excellence of the stock we offer for the present year, and solicit a continuance of favors.

We believe the prices quoted will meet the views of, and prove satisfactory to, our customers generally, being, in every instance, quoted at the lowest rates possible, considering the quality, which, of every kind, is of the same general excellence as that heretofore sent out by us. Gratified with the reports we are constantly receiving, expressing the satisfaction derived from the use of seeds obtained from us, we would again remind our customers of the importance of their purchasing or using seeds only of the *choicest* and *best* quality to be obtained. An experience of twenty-three years as practical Gardeners and Florists, makes us aware how essential it is that all seeds should be pure, and true to name, and we would here state that we invariably test the vitality of all seeds we send out; the benefits that must accrue by this plan, to both patrons and ourselves, will be readily perceived by every one.

In arranging the List of Flower Seeds, we have endeavored, as far as possible, to aid the purchaser in making a judicious selection, rather than to give glowing descriptions of useless kinds to tempt him to extravagant outlays. What New and Rare varieties we have added to our list this season, will be found worthy of a trial in any garden.

Our list of Vegetable Seeds will be found very complete, and comprises all that is essential for the various requirements of the Kitchen or Market Garden. A large proportion of our seeds we grow ourselves from stock that has been selected with the greatest care, and we feel no hesitation in stating that no better seeds can be procured than those offered by us. We are prepared to supply Market Gardeners, Farmers, Grangers, Florists and other like institutions with the finest Seeds, in bulk, at a low price. The flattering testimonials received from all parts of the country are sufficient proof of their excellence.

All orders for Seeds or Plants to go by mail should be addressed to,

SEEDS, PLANTS, BULBS, &C..

Sent by mail to all parts of the United States, Free of Postage to Purchasers.

The Postage Law enables us to send SEEDS, BULBS, PLANTS, ROOTS, and CUTTINGS by mail to any part of the United States, by pre-paying the postage, at the rate of one cent for every two ounces or fraction of ounces. Agreeably to this law all Seeds sold in packets or ounces will be sent by mail at THE PRICES QUOTED IN THIS CATALOGUE, POSTAGE PAID, with the exception of Peas, Beans, and Corn, in larger quantities than packets. For these, when so ordered, sixteen cents per quart or eight cents per lb. must be added to the remittance for postage; as it will be noticed that our prices for these articles are lower, even when the postage is added, than most seedsmen who include postage.

The Postage Law allows four pounds or less to be sent in one package or parcel; and when more than this amount in weight is ordered, they can be sent in additional packages. This convenient arrangement enables those who reside in the most distant parts of the country to obtain their supply of seeds with no more trouble and expense than our nearest neighbors, and with the satisfaction of having seeds on which they can place the utmost reliance. By simply enclosing an order with the money, by mail to our address, our customers will have no further expense or trouble than to call in a short time at their post-office and receive the seeds; as we pay the postage on every package through to its destination.

Seeds will also be sent to Canada and the British Provinces FREE OF UNITED STATES POSTAGE.

How to send Money.—Where *Post-Office Orders, Registered Letters*, or *Checks* are sent, they will be at our risk, and will guarantee the safe arrival of the goods at their destination. *Money Orders* can be obtained at nearly all the principal post-offices, and cost only five cents; this mode is preferable, and is perfectly safe.

Money Orders must be drawn on Exeter or Manchester, N. H.

Letters can be *Registered* at any post-office by placing eight cents in postage stamps on the letter, in addition to the ordinary postage, and requesting the post-master to register it; this is safe and sure to reach us. *Bank Drafts* are obtainable at any bank, and cost about twenty-five cents; these are sure to come all right. The expense of sending money in either of these ways, when the amount sent exceeds one dollar and fifty cents, may be deducted from the amount of the order; or we will send additional seeds as an equivalent, when so desired. Smaller sums may be forwarded by mail at our risk.

Name and Address.—Be particular and give your *Name, Post-Office Address, County and State in full*. We frequently receive orders wanting in some one of these important requisites; and sometimes letters without any signatures, to which, of course, we are unable to reply.

Execution of Orders.—We endeavor to despatch all orders as soon as received, and as nearly as possible in rotation. Seed-time with us brings with it a great pressure of business, which has to be done in a few months, and errors may occasionally occur, notwithstanding our utmost care; but should any happen, we would be obliged if promptly informed, that we may take the earliest opportunity to correct them.

SELECT LIST OF VEGETABLE SEEDS.

FROM year to year our stock of Vegetables has been selected with the greatest care, so that we now feel confident in stating that they can not fail to meet any reasonable expectation; nearly all are grown upon our own grounds, and under our own supervision, and what varieties we have been obliged to procure from abroad, are received from persons of long standing and great reliability, and we have never yet been disappointed in the quality of their seeds. It has been our aim to furnish our customers with the best of seeds without regard to cost; every new variety has been tested as soon as the seeds could be procured, and if found of any extra value, has been added to our lists.

All of the seeds in the following lists will be mailed, post-paid, at prices quoted, with the exception of Beans, Corn and Peas, for which 16 cents per quart, or 8 cents per pound, must be added for postage.

Asparagus.

Large Yellow-flat, or Silver Skin , an old and favorite sort, of excellent quality; grows to a large size, sure cropper and good keeper; per oz., 40 cents.....	10

WETHERSFIELD LARGE RED ONION.

DANVERS YELLOW.

Large Red Wethersfield , very large, deep red, thick, fine-grained, tender and of sweet, pleasant flavor; fine keeper, very profitable; per oz., 40 cents	10
New Queen Onion . A very fine, silver-skin Tripoli Onion, as remarkable for its keeping qualities as for the rapidity of its growth. Sown in spring early it will produce onions, one to two inches in diameter early in summer, which will keep sound until the summer of the following year. It is of an excellent mild flavor and can be highly recommended. Per oz., 75 cents.....	15

Parsley.

	Pkt. Cts.
Plain Parsley , leaves dark green, plain, longer than the Curled, and better flavored for seasoning; per oz., 15 cents.....	5
Curled , more dwarf and tender, leaves yellowish green and beautifully crimped and curled; per oz., 15 cents.....	5

Parsnip.

Long Smooth , root very long, white, smooth, free from side roots, tender, sugary, and most excellent flavored; it keeps through the winter perfectly well; per oz., 10 cents	5
The Student , a new variety of delicious flavor; per oz., 10 cents.....	5
Hollow Crown , roots long, ending somewhat abruptly; grows mostly below the surface. Best garden variety; per oz., 10 cents.....	5

Peas.

The pea is extremely hardy, will endure cold frosty weather without harm, and may therefore be sown very early in spring. Sow the Dwarf varieties, that grow not over fifteen inches high, in rows two feet apart; those varieties that attain the height of two or three feet, in rows three feet apart; and the rows of the tallest sort, four feet apart.

Extra Early.

Carter's First Crop , a new English variety carefully tested with many others, and proved to be the earliest in cultivation, very productive, good flavor, grows 2 1-2 feet high, the baulm being literally covered with pods; per qt., 40 cents.....	10
Early Dan O'Rourke , one of the earliest and a very popular market variety; grows about 3 feet high, pods well filled. Peas of good size and quality, equal in flavor to best Marrowfat; per qt., 25 cents.....	5
McLean's "Blue Peter," This may be called a larger, better and earlier form of Tom Thumb, having blue seed. It is remarkably dwarf, very early, a capital bearer, and of excellent quality; per 1-2 pint packet, 50 cents; per qt., \$1.25.....	15
Caractacus , An early and productive Pea, of good flavor; per qt., 40 cts.,	5
Tom Thumb , very dwarf, not exceeding 9 inches in height, stout and branching; pods containing five or six peas, very early, of excellent quality, yields abundantly. It may be cultivated in rows ten inches apart; requires no sticks; per qt., 50 cents	10
McLean's Little Gem , a dwarf, prolific, green wrinkled Marrow, habit similar to the Tom Thumb, a great acquisition. The chief fault hitherto in early peas has been want of flavor; this valuable variety has all the sugary flavor of late wrinkled peas, besides being very early; height 1 foot, requires no sticks; per qt., 50 cents.....	10
McLean's Advancer , a dwarf, green wrinkled Marrow, of fine flavor, long pods well filled up, very prolific; nearly as early as Dan O'Rourke; new variety from England, 2 1-2 feet high; per qt., 40 cents.....	10
Laxton's Alpha , a blue wrinkled Pea, of exquisite flavor, remarkable for its earliness and prolific bearing. It is very early as a first crop; beating McLean's Advancer and Little Gem; and produces its large, well-filled pods from the bottom to the top of the vines.....	20

Second Early.

Laxton's Prolific Early Long Pod ; this valuable variety, recently brought out in England, has created a great sensation among market gardeners and seed growers. Pods in a green state were exhibited in London averaging eleven to twelve peas in a pod, and were pronounced an exceedingly fine variety. For a second early pea, there is none of a similar class in cultivation equal to it, and we feel very confident that it will soon come into general cultivation; qt., 50 cents....	15
-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----

	Pkt. Cts.
Laxton's Supreme , a new variety of Green Marrows, said to excel all others of its class. It is as early as the Dan O'Rourke, of a most delicious flavor, and pronounced by the London Horticultural Society a most valuable acquisition; per qt., 50 cents	15
Napoleon , about 3 1-2 feet high, of robust growth, pods produced in pairs, 3 inches long, containing five or six peas, of medium size, pale blue; the earliest of the blue wrinkled Marrow Peas, and of superior quality, very prolific; per qt., 50 cents	10
Eugenie . About three feet in height; pods in pairs, three inches long; earliest white wrinkled Marrow Pea in cultivation. Sweet, rich flavor, and very prolific; per qt., 50 cents	10
Bishop's New Long Podded Dwarf , a fine branching, prolific variety, pods containing six or seven peas; early, productive, often producing twenty pods per stem, and of excellent quality; the plants should stand four to six inches apart in the line; 1 1-2 feet; per qt., 40 cents..	10

General Crop.

Champion of England , universally admitted to be one of the best peas grown; of delicious flavor and a profuse bearer, 3 to 4 feet; per qt., 40 cents	10
Dwarf Blue Imperial , a good bearer and fine-flavored, can be highly recommended as a good Summer Pea; 3 feet; per qt., 30 cents	10
Sugar Pea , eatable pods, or string pea; 3 feet; per qt., 50 cents	10
Marrowfat, Black-eyed , an excellent variety either for garden or field culture, grows about 4 feet high, with large and well filled pods; a popular market variety; per qt., 25 cents	5

Scarlet Olive Shaped , in form of an olive, skin fine scarlet, flesh rose color, tender and excellent; per oz., 10 cents	5
Chinese Rose Winter , size medium, skin fine, and of a bright rose color, flesh firm, rather piquant; per oz., 20 cents	10
Raphanus Caudatus , Japan Radish. The seed-pods grow two feet in length; and are eaten as a salad or cooked as Asparagus; it is a very curious plant; per oz., 50 cents	20

Rhubarb or Pie Plant.

Victoria , a large variety, one of the best for general use; per oz., 25 cents,	5
Colossus , very large, of a rich, aromatic flavor; per oz., 25 cents	5

Pkt. Cts.

Salsify or Vegetable Oyster.

Sow early in the spring, on light, rich soil, in drills fifteen inches apart, and thin the plants to four inches in the rows. The roots may be used in October or can remain in the ground without injury during the winter.

Salsify, per oz., 20 cents..... 10

Spinach.

Round, or Summer, thick, fleshy leaves, a little crimped, generally preferred for Spring sowing; per oz., 10 cents 5

Fall, or Prickly, this is the hardiest variety; with triangular, oblong, or arrow-shaped leaves; per oz., 10 cents..... 5

New Zealand, very large and luxuriant; endures drought well, and produces a large quantity of leaves; per oz., 20 cents..... 10

Squash.

Boston Marrow, form ovate, skin thin, when ripe bright orange, flesh salmon yellow, very dry, fine grained, and of a sweetness and excellence unsurpassed; a fall and winter variety; per lb., \$1.50; per oz., 15 cents..... 5

Early Yellow, Striped Bush Scaloped, an early, flat, scallop-shaped sort; color yellow; flesh pale yellow, fine-grained and well flavored; per oz., 10 cents 5

Early White Bush Scaloped, similar to the above, of the same dwarf habit; the principal distinction consists in the difference of color; per oz., 10 cents..... 5

Early Green Bush Scaloped, a sub-variety of the above..... 5

Early Bush Summer Crook-neck, the richest and best sort for Summer; very early and productive. It is small, crook-necked, covered with warty excrescences, color bright yellow. It is used only when young and tender, which may be known by the pressure of the thumb nail through the rind; per oz., 10 cents; per lb., \$1.50..... 5

SUMMER CROOK-NECK SQUASH.

WINTER CROOK-NECK SQUASH.

Fall, or Winter Crook-neck, most generally cultivated for fall and winter use; flesh salmon-red, close grained, dry, sweet and fine flavored; per oz., 20 cents 5

Hubbard, the best winter squash known; flesh orange yellow, fine grained, dry, sweet, and rich flavored; keeps through the winter; per oz., 20 cents; per lb., \$1.50..... 5

Mammoth Prize, this is the largest variety grown, and under favorable conditions of climate and in rich soil, it often grows to the weight of from a hundred to a hundred and fifty pounds; per oz., 40 cents..... 15

MAMMOTH PRIZE SQUASH.

Pkt. Cts.

TURBAN SQUASH.

BOSTON MARROW SQUASH.

- Marblehead**, recommended by the introducer as superior to the Hubbard. It is usually thicker and flatter at the top, with a shell of more flinty hardness; is of greater specific gravity, and the flesh is of rather a lighter color than the Hubbard, while its combination of sweetness, dryness and delicious flavor is something really remarkable. In yield it equals the Hubbard, while its keeping properties are declared to surpass that famous variety; per oz., 20 cents..... 15

Tomato.

- Boston Market.** A variety extensively cultivated for the Boston Market, and highly valued by market-growers for its earliness, size, and other good qualities, and is esteemed one of the best and most profitable varieties in cultivation. Choice seeds, from one of the best raisers for market; per oz., 50 cents 10

BASKET AND BEDDING PLANTS.

BY MAIL. POSTAGE PAID.

The increasing taste for flowering plants and the facilities for procuring them by mail, have induced us to give especial attention to this department, so that we can offer to our numerous customers, and the public generally, the opportunity of obtaining the most desirable plants for bedding or for baskets, at a very small cost, and without any expense of transportation. We have heretofore sent large quantities of plants by mail, and the great success that has attended our mode of packing has so much increased our orders that we have concluded to make it a specialty and to offer a much greater variety in the selection. Our stock is so extensive that we are enabled to select fine, healthy, hardy plants, grown for the purpose, and to offer them at a low price, many kinds being even much lower than our catalogue rates. This we are enabled to do in consequence of the plants being grown in small pots, in very cool houses, so as to insure their transit without injury. At these low prices the selection of kinds must be left to us; for instance, if one fuchsia or two carnations, &c., are wanted, we must select the kinds; we can not afford to do otherwise, as the time occupied in selecting special kinds in the busy part of the season is often worth more than the price of the plants; parties ordering can, however, name kinds they do not want.

Those marked **B** are adapted for Baskets, &c.

Achyranthus, 2 kinds, B.	Geraniums,—	Maderia Vine.
Abutilon, Thompsoni.	Double, 2 kinds.	Panicum Variegatum, B.
